Gifting colourfully crafted design

Welcome to the colourful world of Global Affairs. We want to take you on a positive journey, inspired by beautiful things, such as nature, art and culture.

The joy of gifting

Experience the joy of gifting, believing that every product is a canvas for creating moments of happiness. Embrace a culture of generosity; a powerful tool for positive change, bringing joy to those giving and those receiving. Or as an act of self-care, you gift yourself.

Timeless and colourful design

Appreciate enduring quality with designs that stand the test of time. Immerse yourself in products of quality materials, vibrant colours and thoughtful design that sparks creativity.

Gifting social and sustainable responsible design

We craft gifts that bring colour and joy, whilst prioritizing environmental responsibility and ensuring our suppliers get a fair share.

Designed and manufactured with love and care

We are committed to a social and environmental responsibility of our business, so we can be part of a green and peaceful future. We use sustainable choices of material (recycled and organic textile), no individual packaging and use FSC paper.

Craftsmanship and our makers

We caress the beauty of (mostly) handmade products, crafted with an eye for detail that ensures each piece is a work of art in itself. It's about celebrating traditional crafts and ensuring our makers receive a fair share, contributing to a sustainable and equitable future.

Gifting colourful and sustainable design for third parties

We love to create our Global Affairs collection, but we like to create special items for other brands, museums and retailers just as much.

If you are looking for a partner, to create high quality and timeless compelling gifts, we design, produce and pack in close collaboration with you and we select the best materials, always looking for the most suitable and sustainable solutions.

We developed bespoke collections and products for clients such as Amnesty International, Louvre, Naturalis Biodiversity Centre, TATE Britain, The Van Gogh Museum, and the sustainable retail chain Dille & Kamille.

Please refer to page 39 in case we inspired you.

The gift of a smile

Something small can bring a smile to a face.
Make someone's day with these bright colours and organic shapes
radiating peace or showing a smile or a wink.
Or wear them yourself and feel happy, confident and connected.

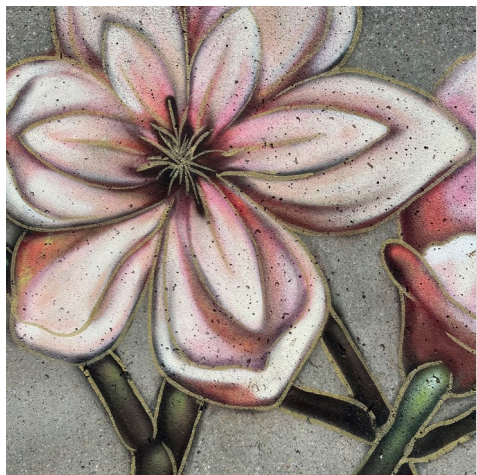

Love & sweet vibes

Let's give some love with these sweet and soft gifts. Sweet, soft colours and cuddly materials as a canvas for creating moments of happiness. Immerse yourself into lovely characters, shapes and themes.

Inspired by nature

Every single detail, the infinite amount of colour variations,
species and refinement. We love it all.
Nature inspires us every day
with it's beauty, complexity and balance.

Arty gifts

You are never too young for an arty present.
Inspire both young and old.

Craftmanship

Embrace the beauty of a handmade product and traditional crafts. Created with love and with an eye for detail, ensuring each piece is a work of art itself. Traditionally crafted, made with a touch of contemporary design.

Your idea
your design,
our idea,
our design...

Bespoke

If you are interested in custom designed products or a entire custom collection of products, don't hesitate to contact us. We look forward to chatting about the possibilities.

There a several options to develop a tailor-made product or collection:

OUR DESIGN

Pick an existing product from our collection and have it adjusted to suit your branding. We can change the design, colours and details of the product and you can use your own logo, barcodes, packaging and logistics.

NEW DESIGN

We can also create a brand new design from scratch, and guide you through the whole process: from drawing board to final product, including creating the barcode, packaging and logistics.

YOUR DESIGN

Do you already have a design?

Great, we will take it from there. We can adapt your design to make it ready for production, and arrange the whole process, including creating the barcode, packaging and logistics.
