KLIMCHI

KLIMCHI STORY

Our *heart and soul* is dedicated to handcrafting beautiful glassware.

You may have spotted us on screen. The Rosaline Hobnail Jug in Barbie, glowing in pink. The green one quietly adorning Bridget Jones's kitchen. Off screen, KLIMCHI tells a deeper story. One of heritage, design and craft.

Rooted in a family glassworks in the heart of Crystal Valley, we have grown into a globally recognized name in designer tableware. Our pieces are featured in top magazines, chosen for royal weddings and trusted by brands like Google, Sisley Paris and Minotti.

Opening our own boutique inside five-star W Prague was a natural step. A place where Bohemian glass returns to its rightful place - the spotlight.

We don't chase
sterile perfection,
handcraft is the truth.

In every bump, wave, and irregularity
— you'll find evidence of a human hand.
