Fishermen are silhouetted against the rising sun after the morning catch, oyster catchers paddle in the shallows, gulls swoop low and water laps gently at the shoreline in this relaxing, seaside inspired collection.

Traditional lino cut and block print techniques were explored when creating this design, with the ripples of the water and cloud formations bringing life and movement to counteract the static beach huts.

Shellfish

Glistening lobsters and crabs, shimmering mussels and clams hide amongst swirls of seaweed in this watercolour painted design. The artwork has been created as a contemporary mirror image, a kaleidoscope of pattern for modern kitchens and seafood lovers.

While the imposing claws of the lobsters and crabs are the focal point of this design, the seaweed tendril reverse pattern with its little hidden clams adds delicacy. The aquatic teal green trims makes the vibrant orange shellfish and iridescent blue mussels really pop with colour.

Christmas Ornaments

Inspired by the tradition of heirloom Christmas ornaments collected over generations and retrieved from the attic each year, this design is hand-painted using mixed media. Drawing from traditional illustrations in vintage fairytales like The Nutcracker, it features stripes and harlequin trims for a contemporary circus feel that's on trend. This collection is perfect for creating a carefully curated tablescape, ensuring a showstopping Christmas table.
